### **INSHPO MEMBERSHIP**

The International Network of Safety and Health Practitioner Organisations (INSHPO) is the global voice for the Occupational Safety and Health profession and acts as a forum for international collaboration among professional organisations to improve safety and health at work.

There are two categories of membership in INSHPO, that of **MEMBER** and that of **AFFILIATE**. Full details are provided in INSHPO's Bylaws. Please refer to Article III: Organisation, sections 2, 3, 4 and 9.

**MEMBER** organisations shall be either organisations that are wholly composed of generalist health and safety practitioner members, or organisations which have a differentiated component of these practitioner members within their structure, or organisations which are themselves partially composed of generalist health and safety practitioner organisations within their country, who are devoted to the regulation of competence, development, promotion and practice of the safety and health profession .

A member organisation which has a differentiated component of generalist health and safety practitioner members within its structure, shall demonstrate that the differentiated component represents a clear majority of the member organisation and is governed separately by elected officials from within its own practitioner member base.

A member organisation which is itself composed of other health and safety organisations from within their country shall demonstrate that the generalist health and safety practitioner entities represent a clear majority of the member organisation and that elected officials from these generalist entities form a majority of the board of directors of the member organisation.

**AFFILIATE** organisations shall be organisations that do not meet the definition of member organisations but subscribe to the ideals of INSHPO. Affiliate organisations have no voting rights, but are welcome to attend and participate in the Annual Business Meetings while also receiving full updates throughout the year on global Health and Safety practitioner concerns.

Is your organization one which is wholly composed of generalist health and safety practitioner members?	<i>If the answer to this question is Yes, then please skip the next question. If your answer to this question is No, then please answer the next question.</i>
Is your organisation an overall or umbrella organisation consisting of other smaller organisations related to Safety and Health?	<i>If the answer to this question is yes, then what are the names of these other organisations? Please also provide a short description of what function these organisations perform and the number of members that each of these organisations have.  If the answer to this question is no, and your organisation is a single organisation that all your members individually belong to, then could the membership be broken down into functions that the members perform? Also, how many are actually working practitioners of H&amp;S within each function?</i>
